ICA 2019 Election – Candidate Information Sheet

Name: V. Krishnawamy

Post: Treasurer

Key Agenda for ICA (Maximum 20 words):

To present to BCCI the views of senior cricketers for betterment of cricket and the interest of senior cricketers in non-confronting manner.

Cricketing and Administrative Credentials (Maximum 150 words):

I have played 42 first class matches for Tamil Nadu and south zone. I was also one of the local reserves for the Indian team in 1979 against Pakistan. I have played in the golden era of 1970's with stalwarts like Pataudi, Bishen, Prasanna Viswanath, Gavaskar, Chandrasekar, Kirmani, Venkataraghavan, Brijesh Patel, Jaisimha and others.

Professionally I joined Indian Overseas bank in 1974 and served till 2012. I got varied experience in places like Gujarat, Kolkata, Ranchi, Bangalore, Chennai, Coimbatore, New Delhi and Mumbai. I served at Seoul, Korea, gained overseas exposure. I worked in various capacities in departments like foreign exchange, treasury (managing funds) human resources and business growth. I became General Manager in the bank. I was President and C O O of Karur Vyasa Bank from 2012 to 2015.

All these have given me vast administrative skills.

Personal Statement to ICA Voters (Maximum 300 words):

Till now there is no collective voice of senior cricketers at BCCI. There has only been some sporadic representation to BCCI. This has not resulted in BCCI granting required benefits to all needy senior cricketers. Of course it is laudable that BCCI is extending medical reimbursement facility and pension benefits to certain category of cricketers.

However, given the stature of BCCI a lot more can be done. I believe that I, if elected as treasurer will work with other office bearers and directors to

- 1) Ensure that all benefits are extended to first class cricketers support staff and ground personnel.
- 2) Explore the possibility of extending these benefits to people outside the cut off of BCCI through their respective associations if needed.
- 3) Ensure that pension benefits are increased every few years in tune with inflation.
- 4) Increase medical reimbursement of Rs. Five lakh.
- 5) Ensure medical reimbursement to all first-class cricketers, support staff and ground staff also.

I also believe that we as past senior cricketers should play a very proactive role in unearthing talent in semi-urban and rural areas to compliment the efforts of BCCI.

All these might require us to manage the funds allotted by BCCI judiciously. ICA may also be required to raise funds for promotional activities for spreading the cricket to semi-urban rural areas and the benefits to retired senior cricketers. This will require financial acumen and contacts at various levels including BCCI.

Given my long stint as professional banker i feel that i am best suited for the post of treasurer to not only raise funds but also manage the funds in a professional manner within the IT regulations of the government and foreign exchange management act of Reserve Bank of India

I earnestly request all ICA members to vote in my favour to enable me to further the collective cause of senior cricketers.

I am so glad that the BCCI has initiated and established the Indian Cricketers Association for the welfare and benefit of all the former and current cricketers, who have been instrumental in the progress of Indian cricket. Indian cricketers needed to be heard for it to be taken even further and to give them a voice through the ICA is a wonderful gesture.

I will be truly humbled and privileged to be elected as a Member Representative in the ICA and my aim would be to help, assist, hear and represent the needs and wants of the former players.

Cricketers sacrifice their youth playing the game and one needs to ensure that they are cared for and looked after they retire. My aim through ICA would be to create an opportunity for cricketer to educate, skill and find new avenues for them to continue their association with the sport and earn a living through it.

Finance and health are two of the most important areas of concern for cricketers in their second phase of life. A good medical policy, adequate pension and a well-structured system would be my primarily initiative for the welfare of former cricketers.

For me, it will be a pleasure to serve every cricketer who played and plays the game in India.

I was in the committee to form this very association (ICA), with vision to serve and work towards the welfare of all cricketers. BCCI showing faith in my integrity and experience, gave me an opportunity alongwith legends like Kapil Dev and Shanta Rangaswamy to choose the head coach of the women's and men's Indian Team as part of the CAC. My experience across various areas of cricket, is a key factor which will help me in addressing our concerns to BCCI keeping in mind the best interest of cricketers.

The outside world sees the glamour of Cricket. There are a fortunate few who were in the Top XI in their times. But there are countless others who have given equally to the game at grassroot levels. Most ex-cricketers, men and women, are struggling to make a living. We need to work with BCCI to help find and create more jobs for such ex-cricketers. BCCI has

done well for cricket for which results speak for themselves across national and International competitions. However, there are issues that need to be addressed regarding pensions for players and widows of first-class cricketers, insurance, Mediclaim, one-time payments, increase in existing pension slabs along with sponsorship for women and junior cricketers.

Cricket has given life a purpose and it is my endeavour to give back to cricket/cricketers. I thank you and look forward to your support.

Dear Fellow Cricketers,

Little did I know that in my life the I would be asking for votes from my colleagues with whom I enjoyed playing a lot.

After giving my best for Goa as a player, I tried to give my best after retirement as a coach, umpire, organiser of tournaments, seminars, author of a manual for kids. I have done to my best of ability and resources. I have not taken a single paisa from anyone for my services.

But I am not happy with the state of our favourite game in Goa. Too many vested interest have cropped up and we charge them as not being cricketers.

Justice Lodha has given us a chance. Two cricketers with experience are to be elected by us cricketers.

This is a democratic process and there should not be differences between us. I welcome elections.

Online voting is permitted. It was gratifying as now elections will be free and fair.

Remember you got the position because you are qualified. Therefore please take the fear out.

If you have faith in my abilities then please vote for me as I shall work for cricket and only cricket.

You are aware, I am in Raipur as Head Coach. I shall terminate a lucrative contract to come to Goa and do my bit for this beautiful game. I shall be poorer financially but that is how I live. I have tried to help each and every cricketer to the best of my ability. I am sure the standard will improve in 3 years.

I can get along with anyone and surely the committee headed by Suraj Lotlikar with whom I vibe well. He too shares a common agenda of getting Goa Cricket high as it belongs there.

I PLEAD TO YOU TO VOTE FOR ME TO HELP GOA CRICKET.

It is important that everybody is given their space to explore things in life. The same applies to all the women out there as well, Let it not only be men's game, let the women explore and the world knows that how a woman can even excel in cricket.

The bottom line is we require first class training and infrastructural facilities at both district and state level for the sustainability and longevity in this sport.

Name: Amikar Dayal

7. Organises special coaching sessions for poor and under-privileged children
8. Member, Committee of Management, BCA as player representative, 2018-19

Personal Statement to ICA Voters (Maximum 300 words):

I. Motivation:

Meeting Sir Don Bradman in 1985 during the India-Australia U-19 test match was a defining moment in my life. During breaks, I sat with him in the pavilion named after him. He spoke about the grit and determination that sports people tend to develop as they walk on the ground and play in the presence of thousands of fans and critics. The hits turn them to Sport icons, the misses pull them to the lowest. That's where characters are built. That was my learning lesson and how I have set my life's goals, learning from my cricket life and taking successes and failures as learning lessons. In 1985 I opened innings with Sunil Gavaskar, in tournament, my most respected senior. In "Gavaskar's Column" he wrote several times about my cricketing ability and leadership, which inspired me. While in my everyday life I use the opportunity of my cricket learnings to build network among cricketers, I also use that opportunity to train young cricketers in Bihar. Since 2001 after the bifurcation of Bihar, cricket absolutely ceased to exist in Bihar. It is my home; I had no option then. In those trying times I had thought to somehow keep the flames going. I took the initiative to voluntarily train young cricketers (both men and women) for free. Some of them went on to become national and international players in the limited resources they had. Now, I want to pool all the resources to enhance skills of aspiring and upcoming young cricketers in the region.

II. My Future Plans for Retired and Current Cricketers:

1. Creating cricketer's clubs
2. Develop group insurance schemes
3. Conduct fund raiser tournaments
4. Building cricketer's communities for education and training loans
5. Community building schemes for families of cricketers.
